EDUCATION

B.Tech in Artificial Intelligence and Data Science

St. Joseph's Institute of Technology, Chennai

Currently Pursuing (3rd Year)

2023–2027

SKILLS

Programming

Java, Python, SQL

Deep Learning

PyTorch, TensorFlow, CNN, RNN

Web Development

HTML, CSS, JavaScript, Streamlit

Machine Learning

Scikit-Learn, XGBoost, Random Forest, Decision Trees

Generative AI

RAG, Semantic Search, BM25, Vector Databases

Tools

Git, GitHub, Docker

EXPERIENCE

Frontend Developer Intern

Femtosoftware Technologies

- Built responsive web pages using HTML, CSS, and JavaScript, improving UI/UX for logistics applications.

Deep Learning Research Intern

Tecnonauts Technology Services, Chennai

- Built a complete landslide image segmentation system using U-Net, U-Net++ , and DeepLabV3+.
- Implemented custom loss functions, evaluation metrics, and visualization tools for performance analysis.

AI Engineer Intern

Quambase, Chennai

- Built an end-to-end Retrieval-Augmented Generation (RAG) pipeline with automated document ingestion, intelligent chunking, and ChromaDB for fast offline vector retrieval.
- Developed a hybrid search system combining semantic search and BM25 to improve answer accuracy for complex enterprise queries.

PROJECTS

Hybrid Clinical Parser for Medical Triage Analysis

- Developed a hybrid OCR pipeline using PyMuPDF, RapidOCR, and regular expressions to extract patient vitals, age, and chronic disease information from scanned and digital medical PDFs.
- Implemented risk-based vital prioritization, and chronic disease detection for accurate clinical data extraction.

Mining Emission Filtering using Machine Learning

- Developed a machine learning model to predict CO₂ and harmful emissions in mining operations.
- Used Random Forest models for prediction and proposed emission reduction strategies.

ACHIEVEMENTS & CERTIFICATIONS

Achievements: 1st Prize – IET Turing Test Event | 1st Prize – Hacks India 2025 | 2nd Prize – Glacier Theme Event

Certifications: Oracle AI Foundation (Oracle Academy), AI Foundations (Infosys Springboard), Data Science Foundations (Cisco)
